

Drop Cable Clamp from 3,0 to 4,0mm

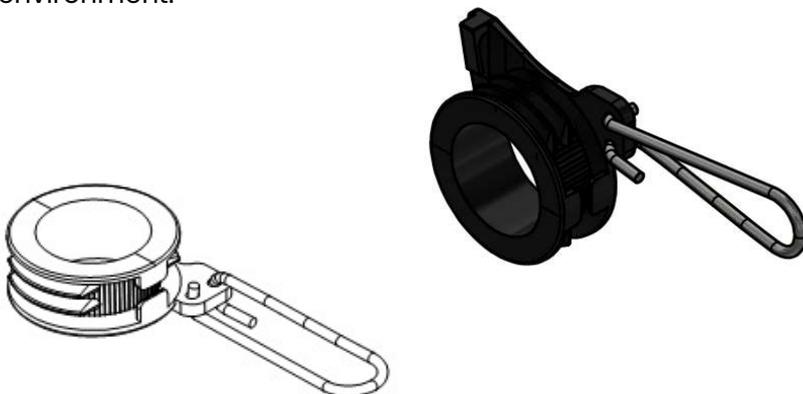

General Specifications

The drop Cable Clamp is a device that enables the fixing of the FO drop cable to the poles or façades.

It is composed of two pieces: a mandrel shaped body where the cable is installed, respecting the minimum bending radius of the drop cable and a metal hook, that is fixed in the plastic part. wall mounted fiber optic

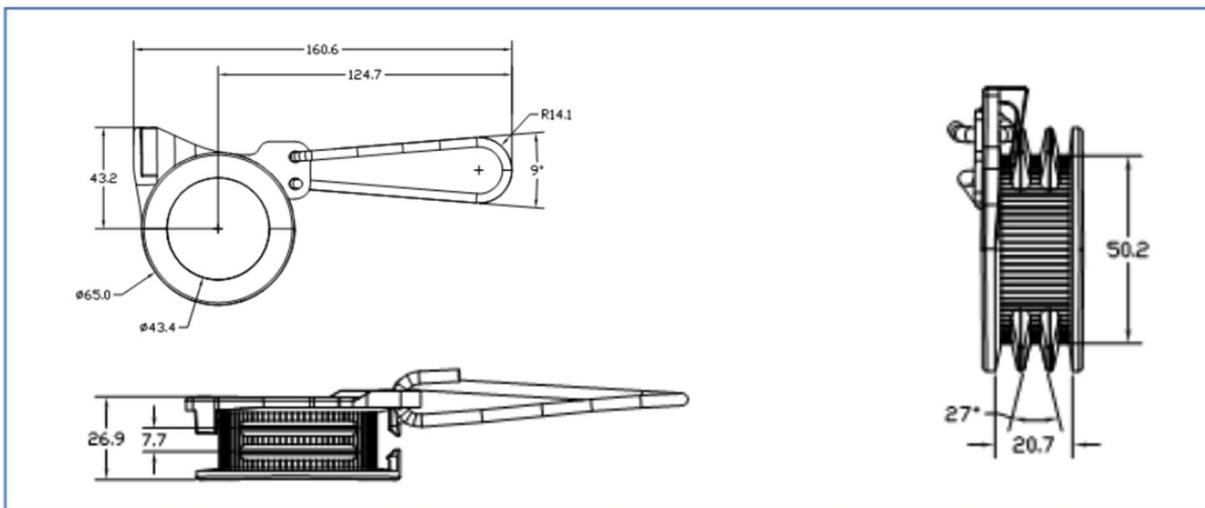

The plastic and metal that compose the product are defined to withstand the outdoor environment: UV resistance for the plastic part and salt mist resistance for the salt mist environment.

Technical Data

Dimensions (mm)	Specifications
Resistance	2 x Ø25 mm
Cable Diameter	1 x Ø16 mm
Weight (kg)	0,059kg
<ul style="list-style-type: none"> • Housing • Hook 	0,035kg (±0,005) 0,024kg
Material Type	UV Protected Thermoplastic Polyamide / Nylon 6
<ul style="list-style-type: none"> • Housing • Hook 	(PA6) Stainless
Housing color	Black RAL9005
