

# BIOSOL 19

## Data sheet

### Product Description

Biosol 19 is a polar solvent containing vegetable-based raw materials.

Biosol 19 has a mild odour and is a water-white, low-viscous liquid.

### Industrial Application

Biosol 19 is recommended as alternative to orange terpene and d-limonene in formulated chemical products such as industrial cleaners. Biosol 19 can be applied in aqueous and non-aqueous products.

Biosol 19 is label-free, non-VOC, and readily biodegradable.

Depending on the application area, products based on Biosol 19 have to be tested on their compatibility towards plastic and elastomer materials.

**Dielectric strength** up to 30kV/mm

### Chemical and Physical Properties

Test Method		Unit	Typical	Specification
DIN 51757 (4)	Density, 20°C	kg/m <sup>3</sup>	880	870-890
ISO 6271	Colour	AHPA	5	max. 50
Visual	Appearance		Clear	Clear
ISO 3016	Pour point	°C	<-10	-
ISO 2719	Flash point	°C	124	min. 100
ISO 3104	Dynamic viscosity, 25°C	mPa·s	4	-
Sensory	Odour		Mild	-
DGF C V11D	Iodine value	g I <sub>2</sub> /100g	<1	-

### CONFEZIONI:

**VBIO191, 05** metallic can in 500 ml or 1 lt bottle, in a card box of 10 pcs

Other packaging available on request
