

FTTH data outlet AP 80 x 80

SC/APC or LCD/APC design

surface mounted, also on top of installation cups

FTTH data outlet AP (surface mounted), 80 x 80 x 23.5 mm

DESCRIPTION

Fibre optic data outlet for indoor FTTH cabling,
for surface mount installation (also for installation on top of installation cups).

APPLICATION

FTTH data outlet for up to 4 fibres.

Set consists of metallic mounting plate and box; box with integrated deposit space for connecting cable and pigtail fibre and with integrated dust covers for couplers.

Available with 2x SC/APC Simplex or 2x LCD/APC coupler, optional with or without pigtails.

Delivery with splice holder for shrink splice protection; when ordering the data outlet with pre-assembled pigtails an additional crimp splice protection is supplied.

FO couplers optionally available with integrated laser protection cover.

Label field with transparent cover.

Cable entry from all four sides and from rear. Available with pre-assembled FTTH indoor cables on request.

DIMENSIONS

(H x W x D) 80 x 80 x 23,5 mm

GENERAL PROPERTIES

Colour: white, similar to RAL 9010
